THE COTTON SITUATION

As we said a few days ago, the South must take hold of the cotton situation herself. Congress can hardly be depended upon to do anything. The visit to Washington of Charles S. Barrett, national president of the Cotton Farmers' Union, indicates rather strongly that congress is disposed to do nothing, because it would establish a precedent which might be dangerous. There is one difference, however, between cotton and wheat, and cotton and canned salmon.

Cotton may be troublesome but it will not spoil and more nearly approaches an indestructible article for legal tender than anything else except the precious metals.

The only way congress seems disposed to aid the South is in the matter of making the currency more clastic, or more liberal.

Dispatches from Washington say that Senator Hoke Smith has im-just how serious is the crisis. He read an amendment which he will propose to the Aldrich-Vreeland cur-The Intelligencer is delivered by carriers in the city. If you fail ited as to enable state banks and trust companies to receive and issue emergency currency. Under the present law only national banks can issue currency and several hundred state banks in South Carolipa are deprived of the privilege.

In the meantime we recur to our days, perhaps weeks, for congress to give favorable action upon this bill. It has now been proposed for usarly state legislature will not meet for a laws will be passed.

As we have indicated before, the assets are here—and what is needed is the cash. Along this line we quote

It is conceded that fundamental conditions are sound, crops being of excellent volume, and that ultimately crop money will make it-self felt. But on the other hand high rates for money check enter-

Now is the time for financial centers north to come to the aid of the South. There are so many demands for loans, however, that money commands a price, just as cotton would if there was a great and insistent demand for it, and we could not look for cotton owners to cut the price on cotton to help the manufacturers any more than we can look for the money owners to cut the price on a purely

philanthropic basis. Therefore, we say again, the South must solve her own problems and we must not waste any more time. The fields are whitening and the crop must be picked. Labor has been high recently, on account of so much construction work and it will be difficult to get labor to understand that wages cannot be as high as heretofore.

In view of these circumstances we think that the strong men of Anderson county should get together and form Gov. Blease might hurry up that ex- an organization, and stand together. We again call upon the banking houses of the city to take the lead and suggest that the city council and the The war has reduced the cost of chamber of commerce and the farmers' union call a mass meeting.

The South must handle her own problems, and NOW is the time to

FOR THE SPEAKERSHIP

One of the interesting developments of the recent primaries is the nomination of Jas. A. Hoyt to the legislature. Mr. Hoyt is an avowed candidate for speaker of the house. Another aspirant for that high and houorable office is George W. Dick of Sumter. The retiring speaker is Menchance to buy 71/2 cents cotton for 10 del L. Smith of Camden, one of the most brilliant men who has ever held a gavel in an assemblage in this

Dr. Dick is at present chairman of other reason for continuing Mr. Wilson the committee on ways and means, the ranking position on the floor of the house and, as a matter of fact, a place offering a greater field for usefulness, opportunity and service than the speakership. Dr. Dick has been one of Sumter's representatives for at the speakership. artists to see how near nothing they the speakership. Dr. Dick has been

presiding officer. Mr. Hoyt was president of the last democratic state con vention. His triends urge that he can not as a new member become chairman of the ways and means committee, but that he has a chance to become speaker.

Dr. Dick is one of the most lovable as well as best loved men in the state, and if he seeks the position of speaker, it will not be easy to keep him from being elected.

There are numerous candidates for the office of clerk of the house.

REBATING WOULD FOLLOW

At first glance the declaration of Commissioner McMaster seems to be sound and patriotic. But a closer consideration make us doubt the wisdom of his opinion on the proposition to receive cotton in lieu of cash in payment of insurance premiums.

"I see no reason," says Mr. Mc-Master, "why the insurance companies and agents should not accept cotton on a ten cent basis in payment of premiums on insurance.

"There is good reason," he continues, "to believe that cotton will probably be worth more than that, especially if the crop of next year can be reduced in size as compared with the past production. At any rate the exegencies of the case and the general methods of doing business of today seem to warrant me in saying that there is no violation of the law in agents and insurance companies acoriginal proposition. It will require cepting the cotton on a ten cents basif for payment of premiums.

The objection that may be made to Mr. McMaster's ruling is that under six weeks. On the other hand our the law it would not affect renewals, we believe, while to accept cotton at month, and there is no guarantee or a higher price than its market value even assurance that any remedial would inevitably lead to rebating to get new business, and the standard and substantial companies could not engage in that kind of wild cat business. While Mr. McMaster's purfrom Bradstreet's weekly review of pose is no doubt laudable, yet he should be more definite in his ruling or revoke it.

FOR CODE COMMISSIONER

The friends of Curran Cooley, member of the Anderson bar, are proposing his name for the position of code commissioner of South Carolina. Andrew J. Bethea, the present commissioner, will become lieutenant governor next January.

The duties of code commissioner are just such as Mr. Cooley is qualifled for. The commissioner takes the acts passed by the general assembly and prepares them for publication in book form. Furthermore at the end of every period of ten years the acts passed within those ten years are assembled and compiled and together with the general statutes then existing are formed into a code of laws for the guidance of the courts.

This is a particular and exacting work and a trained and educated attorney, as well as a person of literary tastes, for frequently the misplacing of a comma might mean the changing of a law. Mr. Cooley is an A. M. as well as an A. B. graduate of the State university and he has had several years in the offices of Bonham, Watkins & Allen He is being put forward by the Anderson bar.

This is a case of Turkey taking over her own country," he said. "And with Turkey in charge of her own country the result will be that Ameri-cans and other foreigners will be ab-solutely safe."

FOREIGN FIRMS ARE ALL RIGHT

Anderson Men Get Information From Insurance Companies **About Foreign Companies**

Since the war scare arose in Europe and the financial outlook for foreign countries became so gloomy, a num-ber of Anderson people have become somewhat concerned over the quesion of whether or not insurance carwied with foreign countries was ab-solutely dependable. G. H. Geiger of the firm of Geiger & Wolfe of Ander-son determined to find out for himself and he accordingly wrote the follow-ing letter to F. H. McMaster, insur-ance commissioner for South Caro-

"Dear Sir: Please let me know if you consider fire insurance written in you consider fire insurance written in an English company safe. What effect do you think the war in that country will have on insurance componies? I have a policy in a Liverpool and Edinburgh company and have felt

some uneasiness about it."
In reply to that letter, Mr. McMaser wrote to the Anderson man as fol-

"You need have absolutely no fear of the safety of your policy in an Eng-lish company. All foreign companies stand entirely on the assets which are held in America. No consideration whatever is given to their foreign as-sets. Practically though a company retains its English name it is for the purpose of insurance in this country on American company.

Very truly,

"F. H. McMaster,

"Insurance Commissioner."

QUICK RETURNS IN HOG RAISING

Livestock Man Advises Farmers of Anderson County That This Is Way to Solve Problems

According to J. O. Williams, live-stock demonstrator for Clemson Col-lege and the United States depurtment of agriculture, the way for the farmers of South t'arolina to over-come the present financial stringency is by raising more hogs. Mr. Wilns is enthusiastic over hir plan and he told a representative of The Intelligencer that this will prove to be he explanation of the farmer's tren bles if the farmer will but consent to

try the plan.

Mr. Williams has mailed out hundreds of letters within the past week, touching on this subject, a copy of which follows:

"Owing to the present crisis brought by the European war. I think it

"Owing to the present crisis brought its phases and engaging in a lengity about by the European war, I think it discussion as to what might be done.

THE PUBLIC LIBRARY MUST BE KEPT OPEN

FRIENDS OF INSTITUTION ARE TRYING TO MAKE **PLANS**

THE **AGREEMENT**

The City Contracted With Mr. Carnegie To Maintain the Institution

The action of the city council in de-clining to make an appropriation for the public library was variously dis-cussed yesterday. Mayor Godfr y declared that the council has heavy re-sponsibilities, but that the members are amenable to argument and are willing to receive information on any matter in which the citizens are inter ested.

The Intelligencer is informed by Mrs. Rufus Fant, president, that the civic association has not taken any position on this matter. The Intelli-gencer received its information from members of the association who stat-ed that the ladies disapproved of the action of council.

At a meeting of the educational committee of the Anderson chamber of commerce Saturday this matter was brought up. The members of the committee feared that the library would have to be closed and were concerned over the proposition of getting funds to meet the expenses. The expenses of the library include pay for the librarian, lights, water, janitor,

At the meeting Friday a general discussion was indulged in during which the members of the committee stressed the fact that the library is one of Anderson's chief possessions and that it is invaluable to the stuand that it is invaluable to the stu-cents of the city and to the business men of the city. They also took up a new feature of the case, that it would put Anderson in a very undesirable light, since the city is morally bound, according to this committee, to make the appropriation, according to the terms of agreement with Mr. Carnegie, The following, taken from the min-ntes of a trustees' meeting held when utes of a trustees' meeting, held when the library project was under way, was cited in support of this conten-

tion:
"Mr. Carnegie agreed to give \$17. 500 to pay for library building provided, the city council would pleage an annual appropriation of 10 per cent or \$1.750, for support funds. That sum was pledged in accordance there-with at a meeting of city council held on 16th of April, 1907 and Mr. Carne

gle was so advised.
"Upon completion of the library building it was ascertained the rost of same was approximately \$1,200 more, making 18,700. Mr. Carnegie was advised of this fact and finally consented to give the additional \$1,200 provided the city council would increase the pledge by \$120 additional annually—which agreement was met at a council meeting held on the 10th of March 1908."

After considering the matter in all the place and agreement in the place of the considering the matter in all the place.

sour by the European war, I think it discussion as to what might be done, it is imperative that the farmers of this state turn their attention toward some phase of livestock production on the farm that will assure them of an intended in the near future.
